By Business Nature

Highly popular with ITE public visitors, who mainly premium FIT, were the 80 travel seminars, which often well attended with some drew well over 100 audiences. Among the speakers were around 16 popular KOLs.

These premium FIT are highly educated, as survey found some 45% with university and another 20% post-secondary qualification; and nearly 70% to spend more on outbound travel in coming year.

In short, ITE public days (B2C) offer visitors, for examples, great shopping of travel products and ideas with hundreds of international exhibitors to choose from. Also, transactions can be settled by credit card, various types of electronic and online payment.

And offer great travel fun too as inside the halls were attractively decorated pavilions, photo booths, mascot shows, performances, lucky draw in booths, souvenirs and travel maps etc.
